Derryl you are one of the hardest working people I have ever known! You made the right decision. Our schedule will be fine. Just be well.

Hello,

I apologize I know I said I would be out there tonight but my back is hurting and do not feel comfortable climbing ladders tonight. . I will be out there tomorrow during the day and should still be on schedule.

Derryl

Subject: Landscape Lighting Rehabilitation

Derryl has been working to rehab or landscape lighting in anticipation of the Holidays Season for several weeks. He has been working regularly on the evening hours. He reports that he's about 80% complete. He and his crew will be on-site again tonight with their last case of replacement lights. After that he may rent a boom if we decide that palm tree lighting should be higher; we'll see next week. He should be complete by the end of next week.

Does that work for you guys?
